

Certificate of authenticity

Artist David Gaberle in collaboration with NFTense Art Collective created an NFT artwork named "Out of Clock Time". This is to certify that the above mentioned artwork is authentic and unique piece of digital art as it was minted only as 1/1 on this NFT marketplace.

David completed a degree in Anthropology at University College London. He published a debut book *Metropolight*, which sold to over 40 countries. His work often revolves around the idea that in an urban setting, our lives are continually reduced to a stream of data and working patterns.
